

Hello my friends!
Welcome back to easy English The Podcast.

In this video, you will shadow 300 useful English sentences —
100 in the present tense,
100 in the past tense,
and 100 in the future tense.

You will hear each sentence two times,
so you can listen, repeat, and improve your pronunciation, rhythm, and
fluency.
I will speak slowly and clean.

Shadowing means speaking together with the voice you hear.
Don't wait — speak at the same time.

It may feel difficult at first,
but if you practice every day,
your English speaking skills will grow fast.
