

Today in this video I am going to teach you 409 English Words To speak English Fluently in just Some Days

Maybe 10 Days

Maybe 20 Days

And

Maybe 30 days

Depends on you.

This will surprise you

English speakers

Use only 400 to 500 words

Every day

Yes

Only 400 to 500 words

Not thousands

Not many many words

Let me tell you something shocking

English language has

More than 170,000 vocabulary words

Yes

One hundred

Seventy

Thousand

Words

Now be honest

Do you think

You can learn

170,000 words

Of course not

But here is the good news

You do NOT need

170,000 words

To speak English fluently

In fact

You can speak

Clear

Confident

Daily English

With just 409 words

Yes

Only 409 simple words

Today's topic is

How To Speak English Fluently with Just 409 Words

In this video

I will explain

How English really works

Why do most people fail

And how

Using only 409 words

You can speak English

In daily life

No difficult grammar

No long word lists

No pressure

Just simple thinking

And smart practice

So please

Do not skip this video

Because

By the end

Your fear of English

Will disappear

Relax

Take a slow deep breath

And let us begin

PART NUMBER ONE

First

We must understand

One very important truth

Why English feels hard

Most people think

English is hard

Because

They do not know

Enough words

But this is a big mistake

The real problem

Is not vocabulary

The real problem

Is wrong learning method

Let me explain

Very simply

English language has

More than 170,000 words

But

Even native English speakers

Do NOT use

All these words

A normal English speaker

Uses only

About 2,000 to 3,000 words

In daily life

And here is

The shocking truth

Most daily talks

Use only

A very small group of words

Words like

I

You

We

They

Go

Come

Do

Make

Take

Good

Bad

Happy

Sad

These words

Come again

And again

Every day

This means

English speaking

Is not about

Knowing many words

English speaking

Is about

Using

Small words

Many times

Now think

When a child learns English

Does the child

Learn dictionary

No

The child hears

Simple words

Again and again

The child repeats

The same patterns

This is how

Language is learned

Not by remembering

But by using

Now let me tell you

What these 409 words are

These are

High-frequency words

This means

They are used

Most of the time

These words include

Pronouns

Like

I

You

He

She

Basic verbs

Like

Go

Come

Eat

Drink

Work

Simple adjectives

Like

Good

Bad

Big

Small

Daily nouns

Like

Time

Food

Home

Money

With these words

You can make

Thousands of sentences

For example

I go home

You go work

We go market

Same word

Different sentence

Now here is

A very important point

Fluency

Does NOT mean

Using big words

Fluency

Means

Speaking smoothly

Without stopping

And this happens

When your brain

Feels safe

Your brain feels safe

When words are easy

That is why

Using less words

Actually helps you

Now tell me

When you try

To use big words

What happens

You stop
You think
You feel fear
But when you use
Simple words
You speak faster
You feel relaxed
This is why
409 words
Are powerful
They remove fear
They build confidence
Now remember this
English is a tool
Not a test
You are not here
To impress
You are here
To express
And 409 words
Are enough
For expression
Now in the next part
I will show you
How sentence patterns
Work with these words
And how
You can speak
Hundreds of sentences
Without learning new words
So please
Stay with me
And move to
Part number two

PART NUMBER TWO

Now

Let us understand

The most powerful secret

Of speaking English

This secret is called

Sentence Patterns

Sentence patterns

Are like

Roads

Words

Are like

Cars

If the road is clear

The car moves easily

If there is no road

The car stops

This is exactly

How English works

Most learners

Collect words

But they do not learn

How to use them

That is why

They know words

But cannot speak

Now listen carefully

You do NOT need

Many words

You need

A few strong

Sentence patterns

Let me show you

The most useful patterns

Pattern one

"I want to..."

This pattern

Is very powerful

With this one line

You can say

Many things

I want to eat

I want to sleep

I want to learn English

I want to work

Same pattern

Different action

Pattern two

"I need to..."

This pattern

Is used every day

I need to go

I need to study

I need to rest

I need to call him

Pattern three

"I am going to..."

This pattern

Talks about future

I am going to eat

I am going to work

I am going to learn English

Pattern four

"I like to..."

This pattern

Talks about feelings

I like to read

I like to talk

I like to learn English

Pattern five

"I have to..."

This pattern

Talks about duty

I have to work

I have to study

I have to wake up early

Now stop for a moment

With only

Five sentence patterns

And only

Simple verbs

You can speak

Hundreds of sentences

This is the magic

Now let me explain

Why this works

Your brain

Likes patterns

When your brain

Sees the same structure

Again and again

It becomes easy

You do not think

You just speak

This is called

Fluency

Fluency

Is not speed

Fluency

Is flow

Now here is

A common mistake

Many learners
Learn grammar rules
But they never speak
Grammar stays in the book
Not in the mouth
But sentence patterns
Go directly
To your mouth
This is why
Native speakers
Do not think about grammar
They think in patterns
Now let us practice
Very slowly
Listen
I want to eat
I need to eat
I am going to eat
I like to eat
I have to eat
See
Same word
Same idea
Different feeling
Now imagine
You do this practice
Every day
For 10 minutes
Your mouth
Becomes trained
Your fear
Starts to go away
This is why
409 words work

Because

They repeat

Repetition

Builds confidence

Confidence

Builds fluency

Now in the next part

I will show you

How to use

These words

In real daily life

Morning

Work

Home

Talking to people

So please

Stay with me

And move to

Part number three

PART NUMBER THREE

Now

Let us use

Our 409 words

In real life

Because

English is not for books

English is for life

Most learners

Study English

But they do not

Live English

Today

We will change this

Now listen carefully

Your daily life
Is already full
Of English topics
Morning
Work
Home
People
Feelings
You do NOT need
Special topics
You need
Daily situations
Let us start
With morning
In the morning
You can say
I wake up early
I feel tired
I need water
I want to rest
Very simple
Very real
Now go to
Work or study
I go to work
I go to class
I feel busy
I feel stressed
Same words
Same structure
Now talking to people
I need help
Can you help me
I want to ask something

I do not understand
These sentences
Use very small words
But they work everywhere
Now let us talk
About feelings
This is very important
Most learners
Know words
But they cannot
Show feelings
With 409 words
You can say
I feel happy
I feel sad
I feel tired
I feel nervous
People understand you
Communication
Is successful
Now let us talk
About past
Many learners
Fear past tense
But do not fear
Simple English
Still works
Yesterday
I go to work
Yesterday
I feel tired
Is it perfect grammar
No
But is it clear

Yes
Now future
Tomorrow
I go work
Tomorrow
I study English
Simple
Clear
This is called
Survival English
And survival English
Is fluency
Now let me tell you
Something very important
People do NOT judge
Your grammar
They judge
Your confidence
When you speak
Without fear
People listen
Now here is
Your daily exercise
Choose
One daily situation
Morning
Or work
Or home
Speak
Five sentences
Out loud
Every day
Do not write
Speak

Your mouth
Must work
This is how
Fluency grows
Now remember
You are not learning English
You are training
Your mouth
And 409 words
Are enough
For training
In the next part
I will show you
How to practice
These 409 words
Daily
Without stress
And move to
Part number four

PART NUMBER FOUR

Now
Let us talk about
Practice
Because
Without practice
Nothing changes
Many people
Watch English videos
But they do not speak
Watching is easy
Speaking is hard
But speaking
Is the real work

Now listen carefully
You do NOT need
One hour
Two hours
Or three hours
You only need
Ten minutes a day
But
Every day
Being regular
Is more important
Than time
Now let me show you
A very simple
Daily practice plan
First
Choose
Ten words
From your 409 words
Only ten
Second
Make
Five sentences
With those words
Speak them
Out loud
Do not whisper
Do not think
Just speak
Third
Repeat
The same sentences
For three days
Yes

Three days
Repetition
Builds muscle memory
Your mouth
Learns movement
Now here is
A powerful method
It is called
Shadow speaking
Listen to a sentence
Pause
Repeat
For example
I want to learn English
Pause
I want to learn English
This trains
Your mouth
And your brain
Together
Now let me tell you
One mistake
Many learners
Want fast results
But language
Is slow
And slow
Is strong
When you speak slowly
You speak clearly
Clear speaking
Builds confidence
Now let us talk
About mistakes

Mistakes
Are not your enemy
Mistakes
Are your teachers
Every mistake
Means
You are trying
If you wait
For perfect English
You will never speak
So speak
Even with mistakes
Now remember
English is not math
There is no
One correct answer
If people understand you
You are successful
Now let me give you
One rule
Never learn a word
Without a sentence
A word alone
Is useless
A word in a sentence
Is powerful
Now let me ask you
Can you speak
Ten sentences
Every day
Yes
You can
And with 409 words
Those ten sentences

Become easy
In the next part
I will show you
How confidence grows
When your word list
Is small
And how
Fear slowly goes away
So please
Stay with me
And move to
Part number five
PART NUMBER FIVE
Now
Let us talk about
Fear
Because
Fear is the biggest enemy
Of English speaking
Most learners
Do not fail
Because of words
They fail
Because of fear
Fear of mistakes
Fear of people
Fear of sounding stupid
Now listen carefully
Fear does NOT come
From English
Fear comes
From pressure
When you try
To speak perfect English

Your mind stops
Your mouth closes
But when you use
Simple English
Your mind feels safe
And this is very important
Your brain
Needs safety
To speak
This is why
409 words work
They reduce pressure
You already know
These words
So your brain says
I am safe
I can speak
Now let me explain
Confidence
Confidence
Does not come
From knowledge
Confidence
Comes
From repetition
The more you repeat
The more confident
You become
Even if
Your English is simple
Now think
A child speaks
Broken English
But speaks confidently

Why
Because the child
Is not afraid
Now let us talk
About people
Many learners think
People will laugh
But this is not true
Most people
Respect effort
And those who laugh
Do not matter
Your goal
Is communication
Not perfection
Now let me give you
A confidence exercise
Stand alone
In your room
Speak
Five sentences
About your day
For example
Today
I wake up early
I feel tired
I go to work
I eat food
I rest
Very simple
But very powerful
Now repeat
The same story
Every day

Your confidence
Will grow
Now remember
Fluency
Is not fast speaking
Fluency
Is comfortable speaking
When you feel comfortable
You speak more
When you speak more
You improve
Now let me tell you
One strong truth
You will never
Feel ready
Ready comes
After speaking
Not before
So start now
With your
409 words
In the next part
I will show you
How to build
A daily English routine
That really works
And move to
Part number six
PART NUMBER SIX
Now
Let us build
A simple
Daily English routine
Because

Without routine

Motivation dies

Routine

Creates habit

Habit

Creates fluency

Now listen carefully

Your routine

Must be

Small

Easy

And repeatable

Not heavy

Not stressful

Now here is

The best routine

Using only

409 words

Morning routine

In the morning

Speak English

For just

Five minutes

Say simple lines

I wake up

I feel sleepy

I drink water

I get ready

I go to work

Speak slowly

Out loud

This wakes up

Your English mind

Now afternoon routine

In the afternoon
Speak again
For five minutes
Talk about work
Or study
I feel busy
I do my work
I need a break
I eat food
Again
Out loud
Now night routine
At night
Speak for
Five minutes
Talk about your day
Today was good
Today was hard
I feel tired
I need rest
That is all
Only
15 minutes a day
But every day
Now let me tell you
Why this works
Because
You are speaking
Real life English
Not book English
Your brain connects
English
With life
This is very powerful

Now let me give you

One rule

Do not skip

Even one day

If you miss

One day

Fear comes back

So even

Two minutes

Is okay

Now remember

English is like

A muscle

If you use it

It grows

If you stop

It becomes weak

Now here is

One more tip

Record your voice

Listen again

You will hear

Progress

This builds

Confidence

Now let me say this

You do not need

A teacher

Every day

You need

Practice

Every day

And 409 words

Are enough

For daily practice
Now
We are near
The end of this lesson
And before you leave
I want you
To remember one thing
English is not magic
English is not talent
English is not luck
English is a skill
And every skill
Grows
With small
Daily
practice
Today
You learned a big truth
English has
More than 170,000 words
But you do NOT need
All of them
You only need
The right words
And 409 words
Are enough
To speak
Clear
Daily
Confident English
Do not wait
For perfect English
Perfect never comes
Start with

Simple English
Speak slowly
Speak calmly
Speak daily
Even
Five sentences a day
Are enough
Remember
Your goal
Is not to impress
Your goal
Is to express
And you can express
Yourself
With simple words
Now let me ask you
Will you stop
After this video
Or will you start
Your English journey
Today
The choice
Is yours
If this lesson
Helped you
Even a little
